

Flow BAR

DIY ACRYLIC & RESIN POURING

Art Nest Creative Studio | Elizabethan Square, 80 Shedden Road | www.artnestcayman.com

Art Nest's new "Flow Bar" offers acrylic and resin pouring sessions where you can create a custom work of art on a variety of interesting bases/items, such as wood, glass, and ceramics, available in diverse shapes, styles, sizes, and themes (see some examples below).

We supply all necessary materials and instructions for you to create your masterpiece, with instructors on hand to provide any needed guidance. Your newly poured artwork will remain in the studio for 4-7 days to cure and have its edges refined. Once your piece is ready, we'll notify you for pick-up!
